Anonymous declares war against Gov. Snyder; cyberattacks confirmed

Author: Steve Neavling Posted on: Jan 22, 2016 02:51 AM

January 22, 2016 No Comment Read More Anonymous hactivists have waged a campaign against Gov. **Rick Snyder** and other officials who ignored the **Flint water** crisis, pledging that “every wrongdoing will be rectified.” In a **video** announcing the campaign, a disguised voice pledges to seek retribution for the...

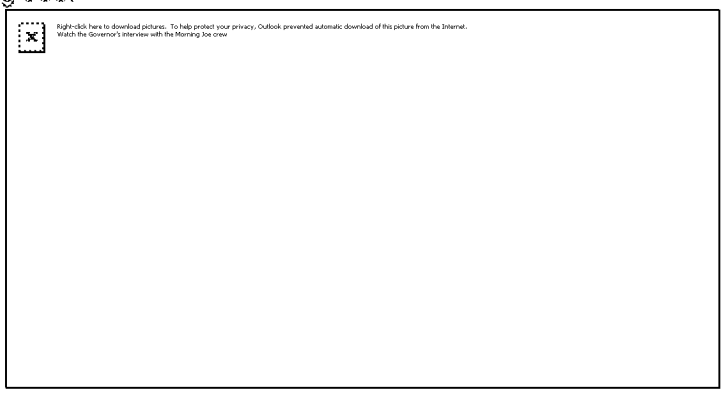
Subject: "He's his own best spokesman"

How we are fixing the Flint water crsis

Governor Rick Snyder has committed to spending the rest of his time as Governor to fixing the Flint water crisis. Over the last few days, he has sat down to explain what happened and how we're fixing the Flint water crisis. Watch the interviews below and be sure to read the Governor's Op-Ed in the USA Today.

Governor Snyder on Morning Joe

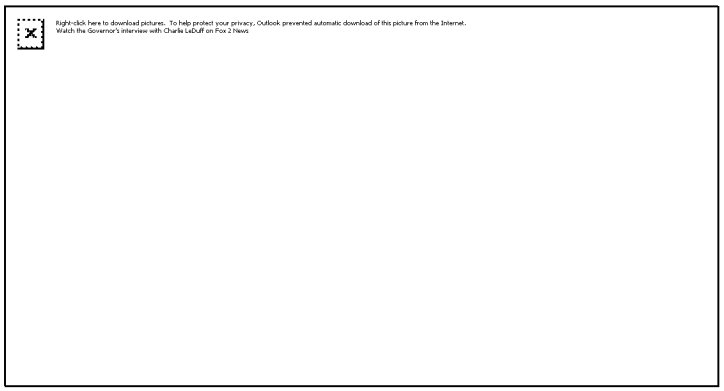
"What is so frustrating and what makes you so angry is you have a handful of experts who were career civil servants that made terrible decisions, in my view. We have to live with the consequences, and they worked for me, so I accept that responsibility. We are going to fix this problem." Watch Governor Snyder address how we are fixing the Flint water crisis on Morning Joe.



Governor Snyder with Charlie LeDuff on Fox 2 Detroit

"I feel awful about this. These are people. They've been harmed. You can't feel good about that. The people of Flint have been harmed and a major influence of that harm

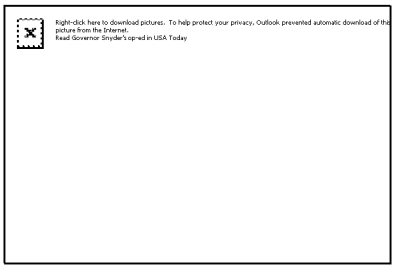
came from people who worked for me, and I feel responsible for that. But I am committed to solving the problem and addressing the damage as much as possible for the rest of the time I'm Governor." Watch Governor Snyder address the Flint water crisis with Charlie LeDuff on Fox 2 News.



Governor Snyder's 2016 State of the State

"Michiganders don't quit, we don't give up, instead we will work with even more passion and commitment to truly improve our state. For everyone who's chosen to make Michigan their home, this is more than a promise, this is my commitment." Watch Governor Snyder's full closing statement from his 2016 State of the State address.

Governor in USA Today: "I will fix this, and I mean it."



"Residents in one of Michigan's proud cities cannot drink their water. That's unacceptable. The crisis in Flint arose from missteps at all levels of government — local, state and federal. But as governor, I take responsibility for what these families are going through, and I'm holding people in my administration accountable for their failures." Click here to read the Governor's full op-ed.

Washington Post: "Michigan Gov. Rick Snyder is in a tough spot, but he's his own best spokesman"

Snyder has born the brunt of criticism in the local health crisis that has turned into a national scandal. But unlike many other politicians facing crises of leadership, Snyder may also be his own best counter-programming. Click here to read the full story in the Washington Post.

To: Pratt, Jeff (DTMB)
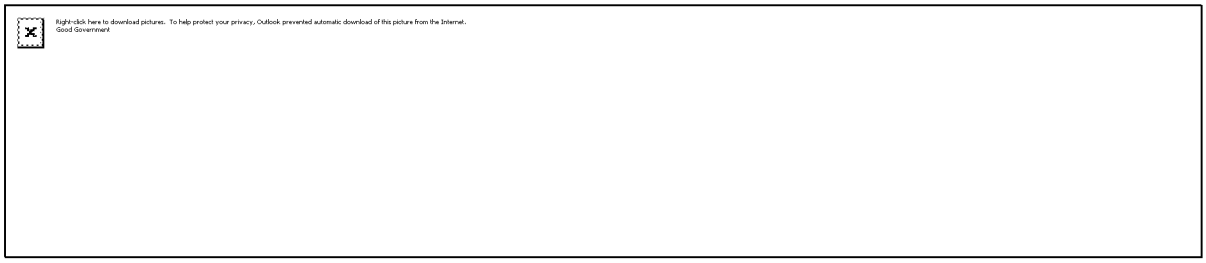
Subject: Flint Volunteer Efforts



Dear State Employees,

Gov. Rick Snyder and I want to thank everyone who donated their time during the holiday weekend to deliver bottled water, water filters, replacement cartridges and water testing kits to families in the city of Flint. We are working hard to ensure all residents are provided with the safe water resources they need, and each donation and hour of your time volunteered goes a long way.

For employees who would like to help the residents of Flint, there are several opportunities to do so. Please visit www.helpforflint.com to learn how you can help.

For additional information and updates, visit www.michigan.gov/flintwater.

Again, thank you for all your support.

Sincerely, Mike Zimmer
Office of Good Government Director
Dept. of Licensing and Regulatory Affairs Director

From: Jones, Sue (DTMB)
Sent: Monday, January 25, 2016 8:48 AM
To: Pratt, Jeff (DTMB)
Subject: Conference Call

Jeff,

Jackson – Nothing new to report
Flint – Usual construction
Saginaw – Nothing new to report
Secondary – Nothing new to report
Capitol – Not on call, called after – Ottawa entrance keeps breaking down, it has been reported and is being worked on; big press conference with the AG's Office about the Flint Water later, extra guard coverage set.

Have a great day,
Sue

Susan Jones

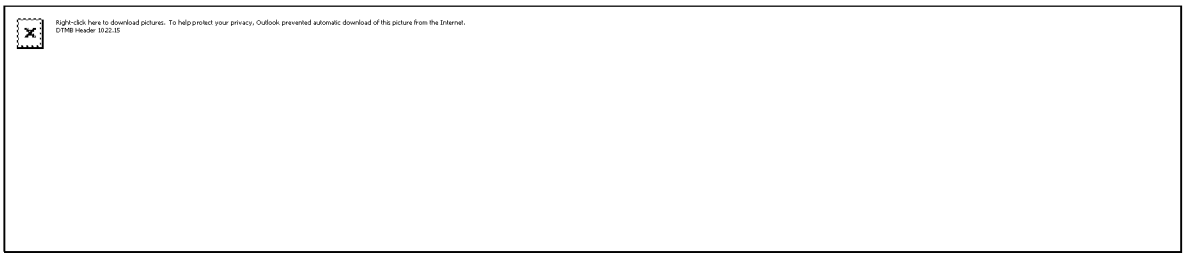
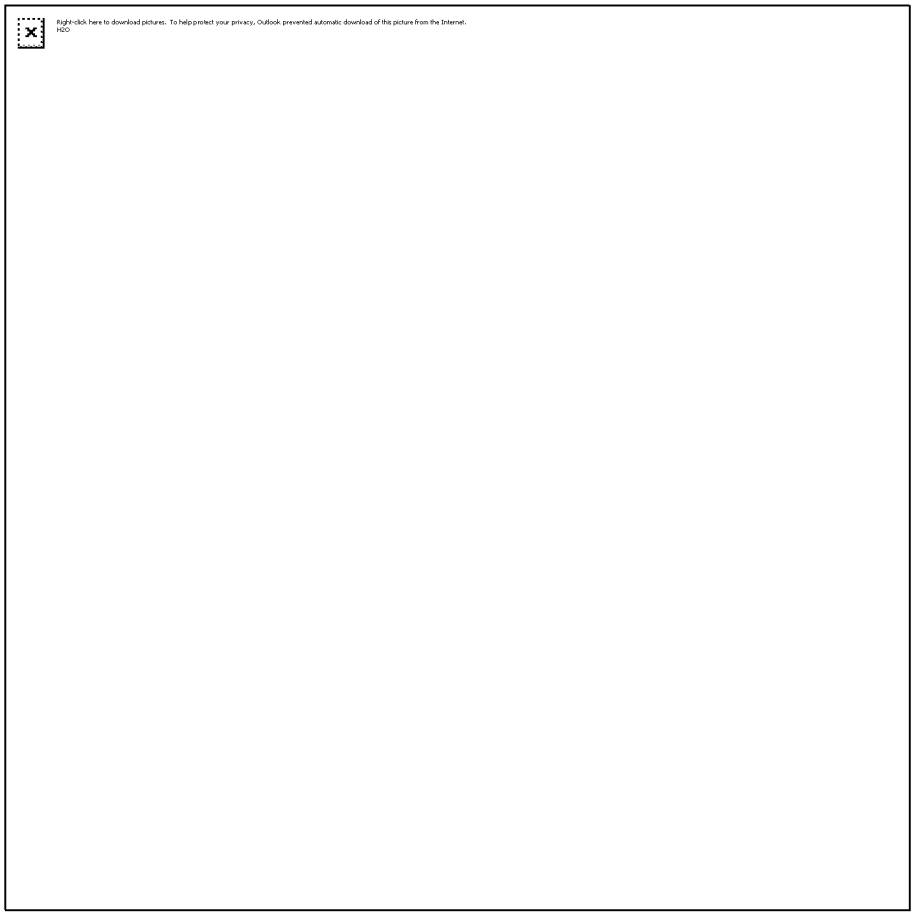
From: Dept. Technology, Management & Budget <dtmb@govsubscriptions.michigan.gov>
Sent: Tuesday, January 26, 2016 8:39 AM
To: Pratt, Jeff (DTMB)
Subject: Contributing time, muscle and money



During this month's Martin Luther King Jr. holiday weekend, some state employees turned their "day off" into a "day on" in Flint. There, they delivered bottled water, water filters, replacement cartridges and water testing kits to families. The volunteers joined other Michiganders, turning Dr. King's birthday observance into a day of service.



Mike Zimmer, director of the Office of Good Government and the Department of Licensing and Regulatory Affairs, has shared a link – www.helpforflint.com – that offers other opportunities to contribute time, muscle and money to bring clean drinking water to the community.Here in DTMB, some of our employees didn't wait for an invitation to lend a hand. Office of Retirement Services staff contributed funds that were used to buy 31 cases and 23 gallons of water, which a local organization transported to Flint.

Autumn Hubbard, Ambrea Mack and Sarah Esquivel, who are in the photo at the left, nearly emptied the shelves at their local grocery store. Thanks for your efforts.

everyone.

Now work.

Last week, I signed a new policy that formalizes the annual employee review process and sets expectations for employees and managers. Administrative Policy 200.37 establishes consistent standards for implementing performance plans and reviews. Some of the standards are practices we have followed for years. Others are new. Some of particular note include:

- The mandatory use of HRMN
- A standard Feb. 1-Jan. 31 rating period for all employees
- An Individual Development Plan that specifies training or development programs for each employee
- Competencies and objectives that align to DTMB goals or scorecard metrics
- Consequences for managers and supervisors who do not complete the review process as required

A fundamental role of each DTMB manager or supervisor is to provide employees with direction and feedback on their performance. Employees also are expected to take an active role in pursuing professional development opportunities and achieving their competencies and objectives. I encourage you to review the new policy and talk with your manager or supervisor if you have questions. Of course, I welcome your questions and input as well. Please send your comments and ideas to me at behend@michigan.gov.

I know these have been busy weeks for many of you as you take on additional responsibilities and work hard to provide resources and services for our customers and citizens across the state. Please know that your hard work has not gone unnoticed. Thank you for everything you do, every day.

Have a great week,

David

THANK YOU!

Fellow employees,

Each day, more than 46,000 state of Michigan employees come to work with the confidence and commitment to make Michigan a better place to live, work and play. I appreciate the way you care about the citizens we serve, and how it is reflected in the work that you do.

As you have heard from me and the media, our reputation and trust can be severely impacted when people do not make good decisions, or use good judgment in solving problems. That principle is universal, but never more so than when public health is at stake. What happened in Flint can never be allowed to happen again anywhere in our state.

I know that you want to work in a place where employee input is valued, efforts are recognized, and teams are always striving for continuous improvement. That's why we introduced employee surveys, Bureaucracy Busters and other reinvention initiatives. We want and deserve a culture of innovation, continuous improvement and employee engagement at every level. We can never take for granted how important the people are who depend on us to do our jobs, and I am asking you not to let the situation in Flint negatively impact your motivation to excel every day.

Many of you have taken an interest in helping the citizens of Flint on your own time, and I'd like to take this opportunity to recognize and thank those who have volunteered over the last couple of weekends. You have worked tirelessly to deliver cases of bottled water, water filters, replacement cartridges and water testing kits to the families in need. I appreciate you donating your time to help our fellow Michiganders. To date, more than 37,000 homes have been visited by one of our water resource teams.

For employees who would like to further help the people of Flint, please visit www.HelpForFlint.com to learn how you can do so. For additional information and to sign up for daily updates, please visit www.mi.gov/FlintWater. I am committed to ensuring that all residents have access to safe and clean water.

Again, I'd like to express my gratitude for the work you do every day to continuously improve our state and earn the trust of those you serve. You make a real difference.

Thanks,

Governor Rick Snyder

Subject: FW: Dan Pulter's Upcoming Hearing

Importance: High

Hi Jeff,

Could you arrange to have a security guard (from the security company that operates the main desk on the ground floor) available for at least the first day of the hearing referenced below? We have no idea how many people may show up and if this guard could be available to help at the security desk and then sit in on the hearing on the first day we would appreciate it. As the day progresses if things are quiet, he could leave. After the first day, we will have some idea how much public attention and participation this hearing will generate.

Please let me know if this can be arranged. The hearing is here in the Ottawa Building, 2nd Floor, Room C and it begins on February 8 at 9:00 a.m. Thanks Jeff!

Subject: Dan Pulter's Upcoming Hearing

Terry,

I am requesting some help with Dan Pulter's upcoming hearing. The matter involves the Holy Waters of the Au Sable. DEQ has approved a permit for a local farmer to produce 300,000 trout per year – which includes the discharge of 8.64 million gallons of waste water, including 25 pounds of phosphorous and 432 pounds of suspended solids, per day. An article published on the topic indicates that the waste will be the equivalent of a city of 65,000. DEQ acknowledges that the water quality will suffer, but says that decreases is necessary to support important social and economic development of the area.

The Sierra Club and Anglers of the Au Sable have been granted a permit appeal. The Sierra Club, with 2.4 million members/supporters, bills themselves as the nation's most influential grassroots environmental organization. With everything going on in Flint, I am not certain if external groups are watching Michigan's waters. I cannot guess if people will want to attend Dan's hearing.

Dan's hearing dates are February 8-12. 24-26, 29-March 3. From a MAHS perspective, I know that we need three counsel table and extra help at the front desk on that morning. In addition, Dan has asked that we alert the security on the first floor. There are four parties on the hearing. We will need to be sure that the parties are brought up swiftly on that day so that they can set up. There may be protesters. There may be concerned local residents. We have no idea what we are looking at.

In a nutshell? Extra security on the first floor on February 8 is a good idea. Can you help us get that?

Thank you, Terry!

Subject: RE: Dan Pulter's Upcoming Hearing

Yes we do want the guard to escort people but if the hearing room is full, we would like them to sit in on the hearing on the first day to make sure that everyone is orderly. If not many people show up and things look quiet, he can leave. This is not a meeting but rather hearing which is open to the public and interested parties.

Terry

Just want to clarify. You would like the guard to escort all attendees to the meeting then post outside room for duration of the meeting then escort attendees back to lobby at conclusion. Is this correct?

Also is this a posted "open meeting?"

Thanks,
Jeff

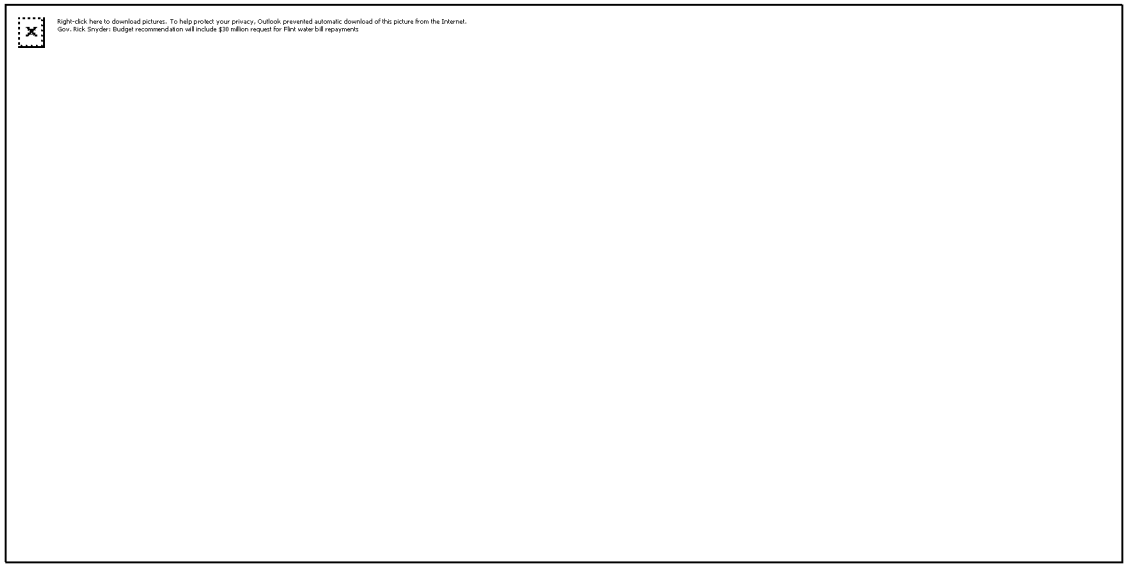
Subject: "Flint residents should not have to pay for water they cannot drink"

Budget recommendation will include $30 million request for Flint water bill repayments



When Governor Rick Snyder presents his budget recommendation next Wednesday, Feb. 10, he will include a $30 million request for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.

Under the governor's ask, the funding would enable the city of Flint to apply credits for customers on future bills. Estimates show water is roughly 47 percent of billing and sewer costs are around 53 percent. The credit would be applied to consumption usage (roughly

65 percent) of a resident's water portion of the bill, such as for bathing, drinking, cooking, and washing your hands. Residents still would be responsible for paying the sewer portion of their water bills.

Professor Marc Edwards of Virginia Tech said, "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going."

Click here to learn more about the budget request.

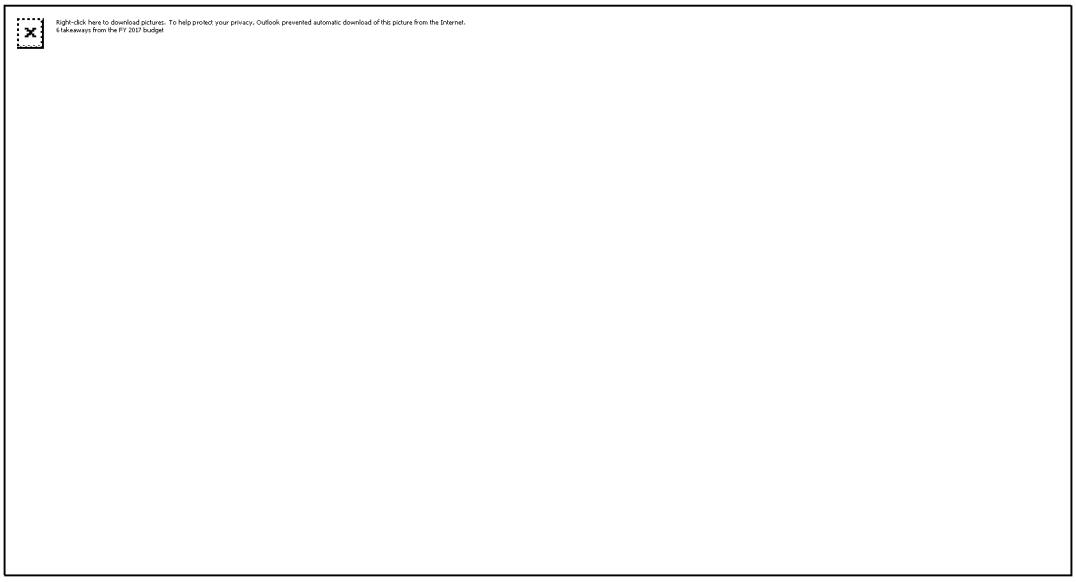
VIDEO: What Governor Snyder's FY17 budget means for Michigan



Gov. Rick Snyder's FY 2017 budget calls for critical investments for the Flint water crisis, statewide infrastructure and the Detroit Public Schools. The governor's recommendation also addresses the skyrocketing costs of specialty medications that Michigan residents depend on for better health outcomes.

This budget also stays committed to the Governor's core statewide priorities of education, talent and economic development, health and human services, and public safety.

The proposed FY 2017 budget makes key investments to strengthen the state for all of

Michigan's families. Click here to learn more about the top 6 takeaways from the Governor's FY 2017 state budget.

Click a tweet to tweet it out:

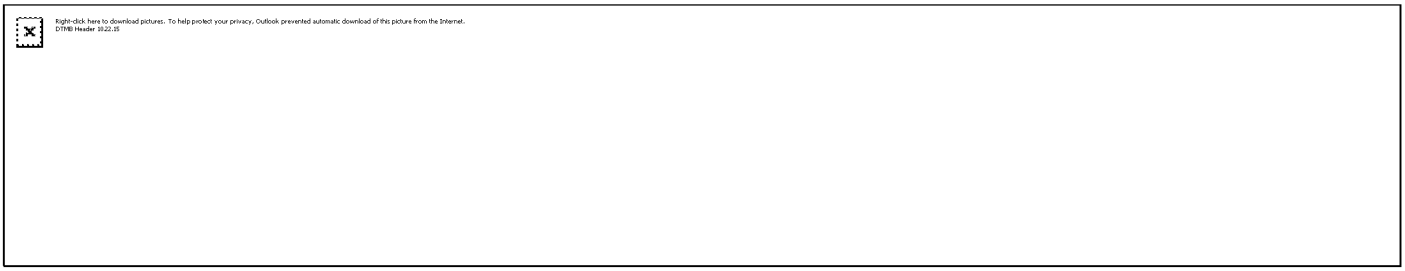
Subject: The Gov. Snyder's Budget Proposal



Good morning everyone. I hope everyone had a great holiday weekend.

I had the good fortune to travel to Marquette on Monday with Chad Laidlaw, DTMB's policy and planning analyst, to meet with city, business and university leaders and to address the Economic Club of Marquette. I told them about the many things DTMB does, placing special emphasis on our work in mobility and cybersecurity. Marquette is really developing and making its mark as an innovative and entrepreneurial community.

Now work.

The executive budget Gov. Snyder presented last week outlined his investment plan for Michigan. Yes, the proposal for fiscal year 2017-18 outlined a strategy to address the critical challenges of addressing the Flint water crisis and turning around Detroit's Public Schools, but the $54.9 billion plan also includes investment in four key areas:

- **Education.** The budget increases investment to K-12 schools, community colleges and the state's public universities. Additional funds are proposed to expand career, technical, science, technology, engineering and math programs.
- **Protecting the Public.** The governor's plan expands the Secure Cities program, which has reduced violent crime in four major Michigan cities. Funds also would support an additional trooper recruit school and an academy to train corrections officers, among other initiatives.
- **Putting People First.** The governor recommends continued expansion of the Healthy Kids Dental Program and funding efforts to ensure residents have access to affordable health care. His proposal boosts funds to help cover new higher cost specialty medications to treat conditions such as hepatitis C and cystic fibrosis, among others.
- **Investing in Infrastructure.** The proposal allocates $1.2 billion to maintain and repair Michigan roads, bridges and other critical infrastructure.

The budget proposal also includes FY 2017-18 funding recommendations for DTMB. Gov. Snyder recommends ongoing funding of $1.3 billion for department operations and a one-time allocation of $32.4 million.

A few highlights include:

- $502 million for information technology support for all state agencies and $132.8 million for 14 high-priority IT projects in seven agencies. He recommends increasing the Information Technology Investment Fund by $7 million, from $65 million to $72 million. This fund supports several major multiyear IT projects and upgrades, including the replacement of outdated legacy systems.
- An additional $5 million to support cybersecurity improvements to safeguard citizens' personal information and protect critical infrastructure and government services.
- IT support of $6.5 million to modernize the Office of Retirement Services' systems and enhance customer service for more than 530,000 current and future retirees.

You can see the full executive budget recommendations, which are posted on the Budget Office website. Details of DTMB's proposed budget begin on page B-75.

We can expect to see many changes before the budgets are signed and become effective Oct. 1. The executive budget will be used by the House and Senate Appropriations Committees as they work on their own budgets and hold committee hearings on the proposals. I'll keep you posted as the process moves ahead.

As always, I welcome your notes, whether about the budget process or any other topic. Please send them to me at behend@michigan.gov.

Thank you again for all the good work you do. I hope you have a great week ahead.

David

> I would like to share a few thoughts with you regarding how to handle this issues if they should pop up in Flint. These are my suggestions only I would advocate that you discuss them with your command. Ironically this will be the primary subject of this summer's SST Refresher.
>
> 1. Remember that citizens who engage in this type of activity are doing so to provide attention to their cause, first and foremost. You may assume that someone (probably multiple citizens) will be recording this activity. Any action taken by police that seems heavy handed or excessive is a bonus because the footage of this activity will be shown 24/7 until the next big issue.
> 2. Remind your personnel "Discipline, Discipline, Discipline". These means that when we are carrying citizens out of an area we need to keep our mouth shut, and do not engage the crowd, this is not the time to express your own views.
> 3. These are passive protestors, remember the use of force continuum and review this with personnel. We do not taser, spray or do pressure points on passive protestors. Most of them will only offer inactive resistance, or at the most passive resistance. If they become combative

and escalate then we may do so, however this is likely not the case. If it sounds like I am telling you to treat them with kid gloves, you are correct.

4. Make sure that one of our members is recording the contact from start to finish, it is extremely important that we have our own unedited record of this event, even if it's with a cell phone.
5. Contact the local prosecutor before anything like this occurs and discuss what scenarios they are willing to a prosecute. Your most likely charge with be:
    a. Trespassing 750.552 : This is the case when a protestor refuses to leave a **private** property after being asked to leave. It can also be enforced in **public** buildings when conduct obstructs the business of the building (i.e. you block ingress and egress, refusing to leave after the building is closed). More on that later.
6. Disruption at a public meeting. There is a fine line between expressing your views and disrupting a public meeting. You will very much have to rely on the chairmen of the meeting to navigate this situation, see comments below under "9".
7. Understand that protestors who wish to be arrested are going to do so, they have already made this decision and are likely devoid of any identification or personnel items. Make sure that the prosecutor is comfortable with not allowing their release until they are identified by fingerprints.
8. The rest of the group is there to watch and lend support, giving them clear direction and separating them from the group is the best way to handle these folks.
9. Plan your responses with building owners, meeting chairman etc. before the event is to occur. For example if you believe you are going to have a sit in at City Hall, get with the building manager and find out what conduct is allowed, i.e. what time does the building open and close, who has the authority to make emergency decisions (this is usually the building manager) etc. If the event is going to happen at a public meeting let the chairman take the lead and have a plan. (i.e. if we have someone unruly that refuses to listen to direction the board should recess until everyone can be calmed down). Do yourself a favor and review the open meetings act, you need to know this information because many boards do not.

Policing the event

Preparation

1. Have sufficient personnel ready to take action (at least a squad, maybe two). You do not have to show your hand early, doing this will often incite the crowd. My suggestion is that you keep them tucked away until you are ready to take action.
2. Know who the group leader is and reach out to them if possible, give them your contact information and how to get ahold of you. I always keep it light, i.e. "I would like your event to be successful, etc."
3. Have personnel designated as arresting officers, liaisons etc.
4. Know the rules of the facility, the groups goals and what the prosecutor will support.
5. Social media is a great tool. Use the MIOC to monitor feeds about the event if you believe there is a public safety concern. Many times when groups get together they attract fringe groups (anarchists, black block etc). Those groups are only there to cause trouble, they have no 1st amendment issues to express and will likely be there to destroy property.

Policing the event

1. Appoint one person, usually the highest ranking , to be the liaison between police and the protestors. Well organized protest groups will have already appointed a police liaison. Discuss with the liaison what the groups goals are. (i.e. if they want to talk to the media, let them talk, under the condition that everyone leaves after the interview is over). Be reasonable. There is no rush to bring this type of scenario to a close. If they are in a public building, and are not blocking

ingress or egress, or disrupting business then you will probably have to wait until the building is closed to take action. Leave a trooper there to watch them. Know the fire code occupancy rating of any indoor space before hand and be prepared to keep track of the number of people entering.

2. Record everything, even if is with a phone… enough said.
3. Give a warning to disperse. This is best done by having the building manager or person in charge of the property address the crowd, make sure this is documented.
4. Once the warning is given, give a responsible time to disperse (5 minutes). If you say 5 minutes make sure you are giving them 5 minutes. Remember your training, we give a minimum of two warnings (that can be heard) use a bullhorn or your outside voice. You can expect that some protestors will leave, they do not want to be arrested. Make sure you have sufficient personnel on hand guide these people to where you want them to be (i.e. if you are in the middle of street send them to the sidewalk and have a trooper stand with them, we don't want them to sitting down again).
5. Once you have gotten past the time limit you will need to address each protestor individually, "Sir, ma'am I am asking you to leave, if you do not leave you will be arrested". If they refuse then arrest the person, be prepared to do a two person, three person or four person carry to remove then (if you are in a building consider getting a wheel chair to push the to a patrol car). Make sure your transport is close to the building.
6. Repeat the same process with each protestor, we do not make mass arrests. TAKE YOUR TIME, THERE IS NOT RUSH!
7. If they plan on marching, assign them a traffic detail. Plan on blocking intersections and providing an escort and tail car, trying to keep 300 people out of the street is futile. If they stage a sit down in the middle of a street, block it off at the intersections and take your time removing them, use the same techniques as above. Once the street is clear get traffic moving and everything back to normal as quick as possible.
8. Make sure you can account for all of the protestors property, take it with them to the jail, i.e. back packs etc.

I have attached several resources that you will find useful, I will have more specifics regarding the Flint Office Building shortly.

To: Pratt, Jeff (DTMB)
Subject: RE: Armed Guard Deployment - Second Flint warehouse
Attachments: 071S6600046 Emergency Flint Armed Guard.pdf

Jeff,

After consulting with Civil Service, it was recommended we add 28 days and additional funding to the original CS138 to cover the second warehouse. We are allowed one 28 day addition to an emergency CS138. I will need to know at the end of February if this service will continue, so I can enter a short term CS138 that will not exceed 832 hours per guard.

Attached is a system print of the CS138, 071S6600046, that includes screen prints of the CS138 header and notepad. The notepad explains the advice of change to add time and money.

Please let me know if you have any questions.

Jeanette,

The CS138 is required in cases like this as the agency requesting the service must demonstrate the cost effectiveness to contract the services as opposed to meeting the need with an FTE. So it relates to a position and does not really take into consideration geographic location.

Hope this helps. Let me know if you still have questions.

Thanks,

Jeff

Because we have State employees working as armed guards (MSP), we are required to get approval from the Civil Service Commission to hire outside of the State Classified Service. I can justify a one month emergency purchase order based on short term/temporary/intermittent needs as long as we stay under 832 hours. For a longer term, we need to show a cost savings for contracting the service, otherwise Civil Service will deny our request.

Rebecca - We will handle the immediate request as an emergency purchase order. But we have CS138 issues with guard service.

Jeff – There is no pricing mentioned in this request. I need a cost estimate for the first month of service so I can enter an emergency CS138 ASAP.

Do you plan on executing this as an emergency purchase order? Or do you want us to research the possibility of whether it can be added to a current contract?

Will you be working with DK to negotiate rates again? Hopefully $43/hr or lower.

Please let me know if you have questions.
Thank you.

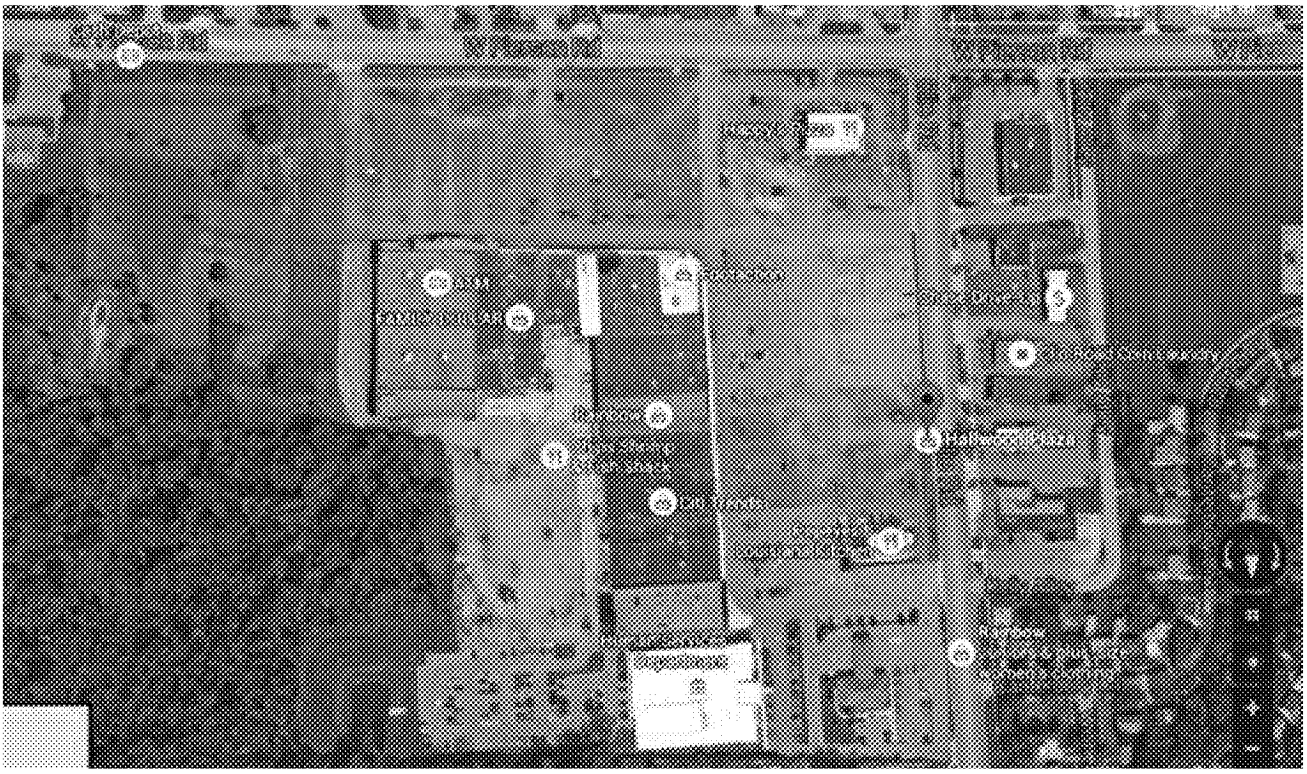
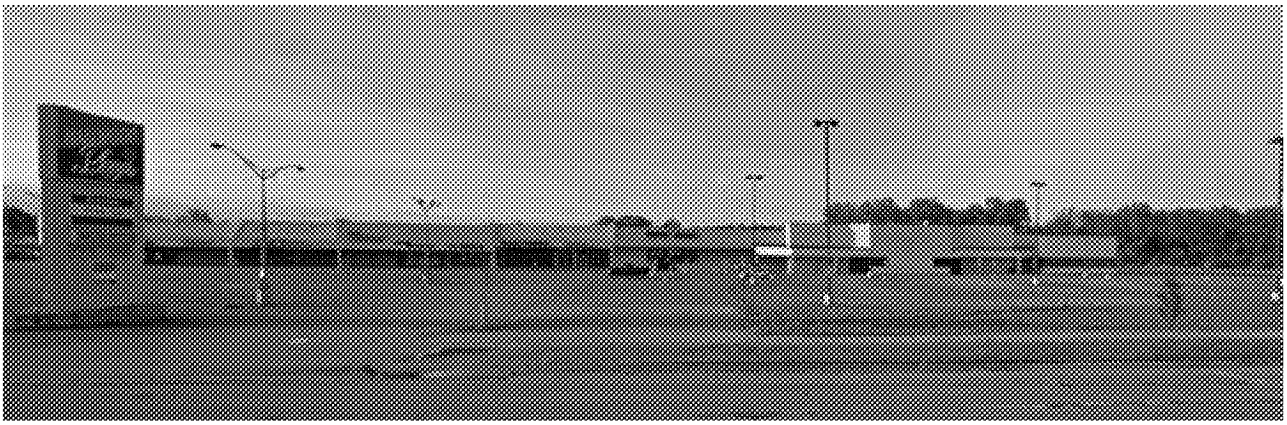
Matt,

Request was received today to deploy an armed security guard for a second warehouse facility in the Flint region. Could you please coordinate deployment of an armed guard as per the following details? Advise if you have any questions or require any additional details. Please confirm assignment at your earliest opportunity.

Start date/time: Mon. 2/8/16 1900hr
Hours of Operation: 1900 – 0700hrs Sun – Sat.
Duration: Month-to-month
Location: Former Kroger store in Hallwood Plaza Northwest corner, 2629 W. Pierson Rd
Post Order: Patrol warehouse interior to deter, detect and report suspicious and/or criminal activity.
Post Confirmation: Call made to DK Command Center start/end of shift and hourly while on duty

Incident Reporting: suspicious/criminal activity - 911
Uniform & Equipment: Standard uniform, side arm, cellphone and flash light (Maglite Baton type 600 Lumens min. or equal).





Thanks,

Jeff

Jeff,

Please review the attached table from Lymon. The rates DK is charging us for the Flint warehouses are quite a bit higher than what they charge on their other SOM armed security contracts.

We need to discuss next week the possibility of having DTMB-Procurement bid out these armed security services for us, after the initial emergency period. Call me when you are free.

Thanks,
Denice

Subject: RE: Armed Guard Deployment - Second Flint warehouse

Denice;

Please see attached **Armed** Security Guard Table that reflects all the current hourly bill rates and wage rates as well as OT rates where applicable.

Also, I researched our entire armed guard portfolio and gleaned that the bill rate includes "staff, vehicle and vehicle maintenance costs" where roving patrols are required.

Finally, as it relates to mileage, "If roving patrol is performed by vehicle, Contractor must keep a daily mileage log showing the number of miles covered during each roaming patrol. These reports shall be provided to the CCI at a specified time on a regular basis or upon request."

Please let me know if you have any questions with any of this information.

Thanks,
Lymon C. Hunter, CPPB

Denice - No. Per my previous email - when I did a cursory check while Lymon was on vacation, the rates appeared to be in the $19.10 to $36 range for current DK armed contracts.

Lymon - Please work with Denice to:

- Verify the current range of rates for DK armed security
- Quantify the night premium, and/or any overtime. The $43 may be explained by adding that to the top of the range above.
- Verify whether we pay for a marked car on other security contracts to benchmark the rate if possible.
- Verify whether mileage is paid on other DK contracts.

Jeff – Is the $43.50/hour rate effective from January 17, 2016 when the first armed guard was deployed at the first location in Mt. Morris? (The original request was for $68/hour.)

Rebecca – Does DK's explanation below look satisfactory? It is a single guard on duty for a 12 hour shift, so there are 4 hours of overtime every day. Also the hours worked are from 7 p.m. to 7 a.m., so I also assume a night premium is included in the hourly rate.

Thanks,
Denice

Denice,

At your request DK Security has provided the following cost breakdown for the guard and vehicle associated with the Governor's declared state of emergency for the Flint water crisis. Please let me know if you require anything further or if there are additional questions.

<u>Guard</u>
Normal bill rate for armed staff is $65/hr. Because the SOM is a current client we dropped that rate considerably. The $43.50 is based on several factors. One major factor is what we pay our staff. All of the armed staff are paid at least $20/hr. We pay this to ensure you get quality staff. Any armed officer we deploy to this site has an extensive security background as well as a long history of weapons safety and training. We also factor in the location, available staff in the

area, what amount of OT it going to cause, management time and involvement and what equipment and supplies will be needed. All these factors play a role when setting the bill rate.

Vehicle
We bill $250 week for vehicle use. That rate is to account for fuel cost, wear and tear (we already picked up a nail in the tire) and the fact that it is a fully marked vehicle with lights and sirens.

Mileage
Standard IRS rate .54/mi

Thanks,

Jeff

Ladies,

On Sunday Jan. 17th we received a request from the State Emergency Operation Center to deploy an armed security guard in support of State emergency operations in Flint. The details of the deployment are contained in the attached MOU provided by DK Security. I am requesting your assistance with the creation and issuance of an emergency purchase order. We informed DK Security that the deployment would be on a month-to-month basis to start. The deployment commenced on Jan. 17th at 3:30pm. The hours of operations are 7p to 7a Sunday through Saturday.

Hopeful I have provided you with the appropriate details. Please contact me if there is anything further you need or actions that I need to take.

Thanks,

Jeff

MEMORANDUM OF UNDERSTANDING

Jeff Pratt
State of Michigan DTMB
Lansing, MI
C: 517-202-4146
E: prattj@michigan.gov

January 18, 2016

The following is a Memorandum of Understanding (MOU) for armed security services between *DuHadway, Kendall and Associates (DBA DK Security)* and *The State of Michigan DTMB.*

SERVICES:

DESCRIPTION	RATE
(1)Uniform Armed Security Officer	**$68/HR**
Drive Time	**$65/HR**
Mileage	**$.60/Mile**

Uniform Security Officer bill rate includes a marked security vehicle.

LOCATION(S): 4315 N. Clio Rd Mt. Morris, MI 48458

SCOPE OF SERVICE: The primary purpose of the Uniform Security Officer's presence is to ensure all vehicles and structures on the property are safe from theft, vandalism, or other illegal activity.

DUTIES: The Uniform Security Officer will be positioned at the main entrance. The officer is to ensure only authorized persons enter the property. The officer will also make regular patrols of the area to ensure all buildings, vehicles, or other equipment is safe.

PAYMENT: NET 30 DAYS.

HOLIDAY CHARGES: Hours worked on New Year's Day, Easter, Memorial Day, Fourth of July, Labor Day, Thanksgiving Day, or Christmas Day will be billed at holiday rate of 1.5x the above listed rate.

ADDITIONAL REQUESTS: DK will bill the client 1.5x the above rate for additional hours that are requested within less than 72 hours of service.

RETAINER: N/A

CONTACT INFORMATION: Mr. Matt Rockwell
Director of Operations SE MI
Office 616-656-0123 ex. 314

Thank you for this opportunity to provide security services for *The State of Michigan DTMB*. Please don't hesitate to contact us should you require additional security services or have any questions.

Sincerely
Matt Rockwell

In response to Flint we have set up a central room in Constitution Hall and we have resources assigned, who are normally out in the field so they do not have access to Con Hall. They need physical access badges.

They are also asking for parking but I wasn't sure if that was something we could accommodate or not.

Thank you,

Manny Rosales

Good Morning Chris,

Thank you for taking the time to meet with our team yesterday. It was very helpful to meet with the broader team and better understand the workflows between each group. As we discussed at the conclusion of the meeting, it would be great if you could provide the following:

-User Groups (Departments)
-Individual Users by Group (with Role and Emails) -Search terms for each group/user

It would also be great to have the names of the individuals we met with yesterday and their contact information.

Attached is a generic overview deck with some of the information we discussed about digital roots.

Thanks again,

Jay

Subject: RE: Armed Guard Deployment - Second Flint warehouse

Denice,

At your request I asked DK to provide an cost breakdown for the emergency armed guard deployment for the warehouse operation in Flint. Their breakdown is as follows for the guard and vehicle.

Guard
Normal bill rate for armed staff is $65/hr. Because the SOM is a current client we dropped that rate considerably. The $43.50 is based on several factors. One major factor is what we pay our staff. All of the armed staff are paid at least $20/hr. We pay this to ensure you get quality staff. Any armed officer we deploy to this site has an extensive security background as well as a long history of weapons safety and training. We also factor in the location, available staff in the area, what amount of OT it going to cause, management time and involvement and what equipment and supplies will be needed. All these factors play a role when setting the bill rate.

Vehicle
We bill $250 week for vehicle use. That rate is to account for fuel cost, wear and tear (we already picked up a nail in the tire) and the fact that it is a fully marked vehicle with lights and sirens.

Mileage
Standard IRS rate (.54/mi)

Thanks,

Jeff

Denice

Do you plan on executing this as an emergency purchase order? Or do you want us to research the possibility of whether it can be added to a current contract?

Will you be working with DK to negotiate rates again? Hopefully $43/hr or lower.

Please let me know if you have questions.
Thank you.
Rebeca

Matt,

Request was received today to deploy an armed security guard for a second warehouse facility in the Flint region. Could you please coordinate deployment of an armed guard as per the following details? Advise if you have any questions or require any additional details. Please confirm assignment at your earliest opportunity.

Start date/time: Mon. 2/8/16 1900hr
Hours of Operation: 1900 – 0700hrs Sun – Sat.
Duration: Month-to-month
Location: Former Kroger store in Hallwood Plaza Northwest corner, 2629 W. Pierson Rd Post Order: Patrol warehouse interior to deter, detect and report suspicious and/or criminal activity.
Post Confirmation: Call made to DK Command Center start/end of shift and hourly while on duty Incident Reporting: suspicious/criminal activity - 911 Uniform & Equipment: Standard uniform, side arm, cellphone and flash light (Maglite Baton type 600 Lumens min. or equal).

Thanks,

Jeff

David:

This is just to update you on some steps we have taken since the call this morning.

MSP will be taking the lead on monitoring any online communication amongst the Anonymous group or threats made by them (Twitter accounts, YouTube, chat rooms, podcasts, hashtags, etc.). I have directed the MIOC commander to assign criminal intelligence analysts to assist the MC3 with this intelligence gathering and monitoring. We will notify the group on anything that merits immediate notification.

We will also be creating a product that lists the known threats and online pseudonyms. We intend for this to be a "living document" that we can update and distribute to the group. It can also be used for MSP briefs on conference calls. If your staff identifies a relevant online posting over this weekend, please have them send it to buddeB1@michigan.gov and EllisJ3@michigan.gov to have it added. We will have a more permanent solution for sharing information on Monday.

Additionally, we will continue to investigate the disruptions that have already occurred. We will brief on this (to the extent we can) as well.

Best,

Dave

On Jan 23, 2016, at 2:13 PM, Behen, David (DTMB) <Behend@michigan.gov> wrote:
Good afternoon. You have likely seen the media reports regarding the threats being made by through Twitter and YouTube to attack and take down Michigan.gov and other websites related to state government and the City of Flint. I sent you an email last weekend to inform you of the DDOS attack that we experienced on Saturday that briefly took our sites offline.

We experienced another attempt to bring our sites down late last night. At 11:28 p.m. michigan.govbecame inaccessible. Our partners at IBM responded immediately and access was restored at 11:56 p.m.We continue to closely monitor all available data and are prepared to respond to any additional attacks quickly. I am committed to keeping you updated as things happen.

Effective cybersecurity is a complete team effort. It is imperative that you and your teams are following proper security protocols for the state, and our employees, to stay safe. Recent data shows that 95 percent of cyber breaches are caused by human error such as emailing sensitive documents, clicking on phishing scams and inappropriately using flash drives.

Here are a few tips to protect you both personally and professionally:

Choose strong passwords and change them often. A strong password uses a combination of letters, numbers, and symbols (when allowed) and does not include a person's name or other commonly known information such as their children's or pet's names.
Do not use the same password for multiple accounts.
Be aware of possible phishing attacks. If you receive an email claiming to be from email provider, bank, or other frequented website, and asks you to change your account password or update account information, make sure the email is legitimate. To be safe, go directly to websites to change your password, and type the link yourself rather than clicking on links embedded in emails.
Be on the lookout for other people accessing your personal accounts. Monitor email and social media accounts for suspicious messages or messages appearing from you, but that you did not send. Monitor bank and credit card accounts for unauthorized charges.
Be observant in state office buildings for anything unusual. Do not let in anyone without a valid state ID.

Please contact me if you have any questions or need additional information - 517-282-0194.

Thanks,
David

On Jan 17, 2016, at 6:00 PM, Behen, David (DTMB) <Behend@michigan.gov> wrote:
Good evening. On Saturday, January 17, Michigan.gov experienced a DDoS attack, or distributed denial of service, which is intended to disrupt the services of an internet site. This effort caused performance slowdowns and briefly made the sites unavailable to users. The incident did not impact internal state systems and did not put any sensitive data at risk.

Due to the recent DDOS attacks against Michigan.gov, I'm encouraging you and all department directors to assess your online safety habits and ensure you are doing everything you can to stay safe. Many times after an attack like the one we experienced the perpetrators turn to other tactics like "doxing" to antagonize the target organization.

"Doxing is the act of publishing someone's personal information, of which there would be a reasonable expectation of privacy and dubious value to the conversation, in an environment that implies or encourages intimidation or threat."

This includes information that may arguably be easy to find, such as a home address from a WhoIs lookup or personal photos from Facebook. Doxing is less about the availability of the information and more about the way it's used to intimidate or harass a target.

Political doxing is happening more and more these days, often targeting high-profile government officials.

Below are a few tips to help you stay safe.

Be aware of security and privacy settings on your accounts. Be selective about who you share information with and limit how often you post about your location (especially if it's your home).
Routinely update computers, devices, and software with the latest security fixes.
Use anti-virus software.
Pay close attention to links and attachments in email messages. Do not open anything that looks even remotely suspicious. If it's legitimate, the person can always send it again.
Also be cautious of social engineering with phone calls claiming to be from something familiar to you and asking for personal information Add protection to your email, social media, and online bank accounts using two-factor authentication techniques.
Choose unique, strong passwords for each of your accounts and change your passwords regularly.
Remember that anything you post on social media might be used against you. Once it's online, you cannot take it back.

Please contact me anytime if you have any questions or need additional information at 517-282-0194.

Thank you,
David
